

Dear

I hope this message finds you well. I am writing as a concerned citizen and veteran to urge you to support the continued structure of TRICARE for Life without the imposition of enrollment fees, as proposed in the Congressional Budget Office's report on budget options for 2024.

TRICARE for Life is a vital benefit for our nation's military retirees and their families, honoring the sacrifices they have made in service to our country. For many retirees, TRICARE for Life is not only a promise fulfilled but also an essential part of their financial and healthcare security. Introducing fees for this program would place an undue burden on those who have already given so much.

I understand the importance of fiscal responsibility, but I urge you to consider the unique sacrifices made by our service members and the significance of keeping this earned benefit intact. Ensuring that TRICARE for Life remains free of enrollment fees demonstrates our nation's gratitude and commitment to those who have served.

As your constituent, I respectfully request that you oppose any proposals to implement enrollment fees for TRICARE for Life and advocate for preserving the program as it stands.

Thank you for your attention to this critical matter. I am grateful for your leadership and your commitment to representing the people of South Carolina.

Sincerely
